Keensight Capital receives AIFM authorization

Keensight Capital, a leading player in European Growth Private Equity, announces it has received AIFM (Alternative Investment Fund Manager) authorization from the French market regulator (Autorité des Marchés Financiers, or AMF) on July 8th 2014.

Following this formal authorization, Keensight Capital will now be able to offer its investors a secure and European-wide regulatory framework implementing its investment strategy. The application procedure was initiated by Keensight Capital at the beginning of 2014, well before the deadline for AIFMD compliance. The attribution of this official label was largely facilitated by the fact that processes similar to those required by the directive were already in place and used by the investment team, in particular in terms of reporting, independence, evaluation, and risk management.
